

# *Let's Speak Dog Training Studio*

---

*presents* **Dr. Donna Gigliotti**  
***Structure, Function, Conditioning:***  
***achieve ultimate performance & limit injury***

Sunday, September 5, 2010  
Nazareth, PA 18045

This Seminar will cover the following topics:

**Structure and Function:**

- How structure affects function
- Explore the question "Is my dog's structure conducive to his activities?"
- Discussion of the demands of different events and how they impact your dog positively/negatively

**Conditioning your Dog:**

- The importance of conditioning to reduce injury and promote peak performance
- Basic warm up exercises, general conditioning, and specific exercises for problem areas

**Conditioning You**

- Discussion on how your own inabilities can affect your dog's performance or lead to injury
- Basic exercises that will help you keep up with your dog

Dr. Donna Gigliotti, DC has been working on animals in conjunction with local veterinarians since 1997 when she received her basic certification in animal chiropractic from the American Veterinary Chiropractic Association (AVCA). She then went on to complete her advanced certification through the AVCA. Dr. Gigliotti has completed a 700+ course in advanced animal neurology. Dr. Gigliotti has completed numerous seminars and classes in neurology, biomechanics and energy therapies. Dr. Gigliotti uses a combination of techniques and modalities to help your animal achieve its maximum health potential including: Gait and Biomechanical Analysis, Musculoskeletal Evaluation, Functional Neurology, Neurofascial Release, Receptor Based Therapy and Jaffe-Mellor Technique (JMT).

**Who is this Seminar for?** Anyone and everyone who owns, works or plays with a dog. This is a non-working seminar. Please do not bring a dog.
